

Manchester N H

Aug 9, 1909.

George H. Plummer,

Dear Sir,

I received your letter and thought I must answer it.

There has no magazine issued since January and I cannot give you any addresses of the brethren who formed the New York College when last constituted. Perhaps Mr Henry P. Gidden of No. Dore St. H. might as he is interested in those times.

Mr. Gould had been failing all winter and gradually

grew worse until May he took
his bed and as the doctors did
not know what the matter
was so he was removed to the
hospital. There they found out
it was tuberculosis of the lungs
which was fatal. He was
removed to his home where he
only lived two weeks.
He passed beyond on July
19th.

These things are hard to pass
through.

Yours truly

Miss Anne L. Gould
